1 x 80/120 cm H. 110 cm - 235 Kg

1 x 80/120 cm H. 130 cm - 200 Kg

INSTALLATION

Set up: 5 hours

Dismantling: 3 hours

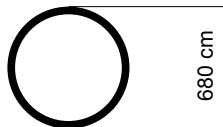

Assistance provided by the organizer:

During set up: 1 person during 2 hours

During dismantling: 1 person during 3 hours

Size of the installation

In the open position (ring)

Space

The ground must be rather smooth and clean to avoid punctures.

The installation is not made to be exhibited outdoors. Nevertheless it may be possible when the weather is dry. Take into consideration that the installation can move 4-10 meters during the performance.

Performance

The organizer has to provide 2 people who will take part in the performance with the artists.

Equipment provided by the organizer:

- 1 electric supply 230V-10A
- 1 air compressor min. 8 bars - 100l
- 1 subwoofer min 1000W
- 1 industrial vacuum cleaner (to empty the tubes)
- 6 LiPo batteries 5.2 Ah - 6s (for exhibitions in overseas countries only)
